Subject Index — Index des sujets

A

Abiotrophy

- Abiotrophy in domestic animals: A review, 65

Actinobacillus

- *Actinobacillus pleuropneumoniae*: Molecular aspects of virulence and pulmonary injury, S53
- Capsules and virulence in the HAP group of bacteria, S22
- Family *Pasteurellaceae*: Modern approaches to taxonomy, S6
- *Haemophilus*, *Actinobacillus*, *Pasteurella*: Mechanisms of resistance and antibiotic therapy, S73
- Interactions of *Haemophilus*-*Actinobacillus*-*Pasteurella* bacteria with phagocytic cells, S36
- Molecular characterization of cytotoxins produced by *Haemophilus*, *Actinobacillus*, *Pasteurella*, S33
- New diagnostic techniques: A review of the HAP group of bacteria, S68
- Overview of the virulence attributes of the HAP-group of bacteria, S12
- Positive and negative aspects of host immune response to *Haemophilus*, *Actinobacillus* and *Pasteurella*, S41
- Socioeconomic significance of the HAP group, S1
- Virulence attributes of the liposaccharides of the HAP group organisms, S28

Actinobacillus pleuropneumoniae

- *Actinobacillus pleuropneumoniae*: Molecular aspects of virulence and pulmonary injury, S53

- Analysis of southern Ontario *Actinobacillus* (*Haemophilus*) *pleuropneumoniae* isolates by restriction endonuclease fingerprinting, 244
- Blood gas and hematological changes in experimental peracute porcine pleuropneumonia, 164
- Capsular polysaccharide antigens for detection of serotype-specific antibodies to *Actinobacillus pleuropneumoniae*, 320
- Minimum inhibitory concentrations of antimicrobial agents against *Actinobacillus pleuropneumoniae*, 198
- Serodiagnosis of pleuropneumonia using enzyme-linked immunosorbent assay with capsular polysaccharide antigens of *Actinobacillus pleuropneumoniae* serotypes 1, 2, 5 and 7, 427

Alkaline phosphatase

- Attempt to determine the tissue origin of equine serum alkaline phosphatase by isoelectric focusing, 119
- Isoelectric focusing properties of serum alkaline phosphatase in disease and following prednisolone and phenylbutazone administration in the horse, 126

Alzheimer's disease

- Alzheimer's disease — neuropathological aspects, 58
- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49

Anestrus

- Steroid hormone and luteinizing hormone concentrations in anestrus sow, 209

Antimicrobial agents

- *In vitro* susceptibility of selected veterinary bacterial pathogens to ciprofloxacin, enrofloxacin and norfloxacin, 195

Ascariasis

- Ascariasis, respiratory diseases and production indices in selected Prince Edward Island swine herds, 267
- Critical assessment of abattoir surveillance as a screening test for swine ascariasis, 274
- Effect of ascariasis and respiratory diseases on growth rates in swine, 278

Atrophic rhinitis

- Ascariasis, respiratory diseases and production indices in selected Prince Edward Island swine herds, 267
- Bacterial adhesion to mucosal surfaces with special reference to *Pasteurella multocida* isolates from atrophic rhinitis, S16
- Effect of ascariasis and respiratory diseases on growth rates in swine, 278
- Host response to *Pasteurella multocida* turbinate atrophy toxin in swine, 157

B

Blood metabolites

- Effects of experimenters and different blood sampling procedures on blood metabolite values in growing pigs, 379

Bordetella bronchiseptica

- Hydrophobic surface properties of *Bordetella bronchiseptica* X-mode cells and their possible role in adherence to porcine nasal mucosa, 296

Bovine virus diarrhoea

- Detection of bovine viral diarrhoea virus genome in leukocytes from persistently infected cattle by RNA-cDNA hybridization, 256
- Group level analysis of the associations between antibodies to seven putative pathogens and respiratory disease and weight gain in Ontario feedlot calves, 337
- Monoclonal antibodies to the p80/125 and gp53 proteins of bovine viral diarrhoea virus: Their potential use as diagnostic reagents, 343

Bovine leukaemia

- Effect of brucellosis vaccination and dehorning on transmission of bovine leukaemia virus in heifers on a California dairy, 184

Bovine spongiform encephalopathy

- Transmissible encephalopathies in animals, 30

Buffaloes

- Sertoli cell of the water buffalo — An electron microscopic study, 93

C

Campylobacter jejuni

- Reproductive failure in mink and ferrets after intravenous or oral inoculation of *Campylobacter jejuni*, 432

Canine motor neuron disease

- Hereditary canine spinal muscular atrophy: Canine motor neuron disease, 77

Caprine B-D mannosidosis

- Caprine B-D-mannosidosis: Characterization of a model lysosomal storage disorder, 22

Caprine arthritis-encephalitis-mastitis

- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Capsules

- Capsules and virulence in the HAP group of bacteria, S22

Cats

- Abiotrophy in domestic animals: A review, 65
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42
- Pharmacokinetics of phenobarbital in the cat following multiple oral administration, 309
- Pharmacokinetics of phenobarbital in the cat following intravenous and oral administration, 132
- Postmortem eye fluid analysis in dogs, cats and cattle as an estimate of antemortem serum chemistry profiles, 487

Cattle

- Abiotrophy in domestic animals: A review, 65
- Activation of bovine monocytes and neutrophils by the Bb fragment of complement factor B: Demonstration by the uptake of 3H-deoxyglucose, 106
- Airborne spread of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 465

- Assessment of an enzyme-linked immunosorbent assay using a *Taenia hydatigena* fraction antigen in the diagnosis of cysticercosis in cattle, 299
 - Bb fragment of bovine complement factor B: Stimulation of the oxidative burst in bovine monocytes, 410
 - Detection of bovine viral diarrhoea virus genome in leukocytes from persistently infected cattle by RNA-cDNA hybridization, 256
 - Effect of deferaxamine pretreatment on acute pneumonic pasteurellosis and neutrophil oxidative metabolism in calves, 227
 - Effect of *Pasteurella haemolytica* and the leukotoxin of *Pasteurella haemolytica* on bovine lung explants, 151
 - Effect of brucellosis vaccination and dehorning on transmission of bovine leukaemia virus in heifers on a California dairy, 184
 - Effects of progesterone and human chorionic gonadotrophin administration five days postinsemination on plasma and milk concentrations of progesterone and pregnancy rates of normal and repeat breeder dairy cows, 305
 - Effects of *Pasteurella haemolytica* A1 culture supernatant on mechanisms controlling bovine alveolar macrophage oxygen radical production, 232
 - Epidemic of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 457
 - Fragment Bb of bovine complement factor B: Stimulatory effect on the microbicidal activity of bovine monocytes, 405
 - Granulocyte plasma membrane damage by leukotoxic supernatant from *Pasteurella haemolytica* A1 and protection by immune serum, 146
 - Granulomatous enteritis following oral inoculation of newborn rabbits with *Mycobacterium paratuberculosis* of bovine origin, 313
 - Group level analysis of the associations between antibodies to seven putative pathogens and respiratory disease and weight gain in Ontario feedlot calves, 337
 - Guinea pig model of bovine pneumonic pasteurellosis, 139
 - Hematological changes in calves exposed to a mixture of lipopolysaccharide and crude leukotoxin of *Pasteurella haemolytica*, 415
 - Immunobinding assay for detection of *Mycoplasma bovis* in milk, 251
 - Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42
 - Method to estimate the somatic cell count of milk from a mastitic quarter using composite somatic cell count, 190
 - Monoclonal antibodies to the p80/125 and gp53 proteins of bovine viral diarrhoea virus: Their potential use as diagnostic reagents, 343
 - Pathogenesis and serodiagnosis of experimental *Trichinella spiralis* and *Trichinella spiralis nativa* infections in cattle, 355
 - Postmortem eye fluid analysis in dogs, cats and cattle as an estimate of antemortem serum chemistry profiles, 487
 - Preliminary studies of a platelet function disorder in Simmental cattle, 394
 - Protective effect of vaccination against experimental pneumonia in cattle with *Haemophilus somnus* outer membrane antigens and interference by lipopolysaccharide, 326
 - Risk factors for mortality from diarrhoea in beef calves in Alberta, 366
 - Transmissible encephalopathies in animals, 30
- ## Chickens
- Alleviation of hysteria in laying hens with dietary tryptophan, 291
 - Fibrosing cholehepatitis in broiler chickens induced by bile duct ligations or inoculation of *Clostridium perfringens*, 285
- ## Cholehepatitis
- Fibrosing cholehepatitis in broiler chickens induced by bile duct ligations or inoculation of *Clostridium perfringens*, 285
- ## Clostridium perfringens
- Fibrosing cholehepatitis in broiler chickens induced by bile duct ligations or inoculation of *Clostridium perfringens*, 285
- ## Colic
- Computer-derived protocol using recursive partitioning to aid in estimating prognosis of horses with abdominal pain in referral hospitals, 373
- ## Colonic disease
- Morphometric study of the canine colon: Comparison of control dogs and cases of colonic disease, 477

Complement

- Activation of bovine monocytes and neutrophils by the Bb fragment of complement factor B: Demonstration by the uptake of 3H-deoxyglucose, 106
- Bb fragment of bovine complement factor B: Stimulation of the oxidative burst in bovine monocytes, 410
- Fragment Bb of bovine complement factor B: Stimulatory effect on the microbicidal activity of bovine monocytes, 405

Coronaviruses

- Detection of coronavirus-like particles from mink with epizootic catarrhal gastroenteritis, 383
- Experimental infection of young rabbits with a rabbit enteric coronavirus, 473

Creutzfeldt-Jakob disease

- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Transmissible spongiform encephalopathies in humans: Kuru, Creutzfeldt-Jakob disease and Gerstmann-Sträussler-Scheinker disease, 38

Cysticercosis

- Assessment of an enzyme-linked immunosorbent assay using a *Taenia hydatigena* fraction antigen in the diagnosis of cysticercosis in cattle, 299

Cytotoxins

- Molecular characterization of cytotoxins produced by *Haemophilus*, *Actinobacillus*, *Pasteurella*, S33

D

Deferoxamine mesylate

- Effect of deferoxamine pretreatment on acute pneumonic pasteurellosis and neutrophil oxidative metabolism in calves, 227

Dehorning

- Effect of brucellosis vaccination and dehorning on transmission of bovine leukemia virus in heifers on a California dairy, 184

Diarrhea

- Porcine group C rotavirus as a cause of neonatal diarrhea in a Quebec swine herd, 385
- Risk factors for mortality from diarrhea in beef calves in Alberta, 366

Dimethyl sulfoxide

- Concentrations of trimethoprim and sulfamethoxazole in cerebrospinal fluid and serum in mares with and without a dimethyl sulfoxide pretreatment, 215

Dogs

- A morphometric study of the canine colon: Comparison of control dogs and cases of colonic disease, 477
- Abiotrophy in domestic animals: A review, 65
- Hereditary canine spinal muscular atrophy: Canine motor neuron disease, 77
- Immunohistochemical detection of intermediate filament proteins in formalin fixed normal and neoplastic canine tissues, 360
- Postmortem eyefluid analysis in dogs, cats and cattle as an estimate of antemortem serum chemistry profiles, 487

Electromyography

- Use of electromyography for the diagnosis of equine hyperkalemic periodic paresis, 495

Epizootic catarrhal gastroenteritis

- Detection of coronavirus-like particles from mink with epizootic catarrhal gastroenteritis, 383

Equine hyperkalemic periodic paresis

- Use of electromyography for the diagnosis of equine hyperkalemic periodic paresis, 495

Equine infectious anemia

- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Equine herpesvirus type 1

- Safety and efficacy of a thymidine kinase negative equine herpesvirus-1 vaccine in young horses, 260

Equine eosinophil migration

- Effect of leukotriene B₄, leukotriene C₄, zymosan activated serum, histamine, tabanid extract and N-formyl-methionyl-leucyl-phenylalanine on the *in vitro* migration of equine eosinophils, 400

Evoked potentials technique

- Effects of high dietary sulfur on brain functions using evoked potentials technique, 113

Eyefluid analysis

- Postmortem eye fluid analysis in dogs, cats and cattle as an estimate of antemortem serum chemistry profiles, 487

F

Ferrets

- Reproductive failure in mink and ferrets after intravenous or oral inoculation of *Campylobacter jejuni*, 432

Foot-and-mouth-disease

- Airborne spread of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 465
- Epidemic of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 457

G

Gastric ulceration

- Radioimmunoassay of serum pepsinogen in relation to gastric (*pars oesophagea*) ulceration in swine herds, 390

Gerstmann-Sträussler-Scheinker syndrome

- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Transmissible spongiform encephalopathies in humans: Kuru, Creutzfeldt-Jakob disease and Gerstmann-Sträussler-Scheinker disease, 38

Goats

- Abiotrophy in domestic animals: A review, 65
- Caprine B-D-mannosidosis: Characterization of a model lysosomal storage disorder, 22
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Guinea pigs

- A guinea pig model of bovine pneumonic pasteurellosis, 139

H

Haemophilus somnus

- Epidemiology of *Haemophilus somnus* in young rams, 331
- Molecular aspects of some virulence factors of *Haemophilus somnus*, S57
- Protective effect of vaccination against experimental pneumonia in cattle with *Haemophilus somnus* outer membrane antigens and interference by lipopolysaccharide, 326

Haemophilus

- Capsules and virulence in the HAP group of bacteria, S22
- Family *Pasteurellaceae*: Modern approaches to taxonomy, S6
- *Haemophilus influenzae*: Surface antigens and aspects of virulence, S63
- *Haemophilus*, *Actinobacillus*, *Pasteurella*: Mechanisms of resistance and antibiotic therapy, S73
- Interactions of *Haemophilus-Actinobacillus-Pasteurella* bacteria with phagocytic cells, S36
- Molecular aspects of some virulence factors of *Haemophilus somnus*, S57
- Molecular characterization of cytotoxins produced by *Haemophilus*, *Actinobacillus*, *Pasteurella*, S33
- New diagnostic techniques: A review of the HAP group of bacteria, S68
- Overview of the virulence attributes of the HAP-group of bacteria, S12
- Positive and negative aspects of host immune response to *Haemophilus*, *Actinobacillus* and *Pasteurella*, S41
- Socioeconomic significance of the HAP group, S12
- Virulence attributes of the liposaccharides of the HAP group organisms, S28

Haemophilus influenzae

- *Haemophilus influenzae*: Surface antigens and aspects of virulence, S63

Haptoglobin purification

- Purification of swine haptoglobin by affinity chromatography, 501

Hereditary canine spinal muscular atrophy

- Hereditary canine spinal muscular atrophy: Canine motor neuron disease, 77

Horses

- Abiotrophy in domestic animals: A review, 65
- Attempt to determine the tissue origin of equine serum alkaline phosphatase by isoelectric focusing, 119
- Computer-derived protocol using recursive partitioning to aid in estimating prognosis of horses with abdominal pain in referral hospitals, 373
- Concentrations of trimethoprim and sulfamethoxazole in cerebrospinal fluid and serum in mares with and without a dimethyl sulfoxide pretreatment, 215
- Effect of leukotriene B₄, leukotriene C₄, zymosan activated serum, histamine, tabanid extract and N-formyl-methionyl-leucyl-phenylalanine on the *in vitro* migration of equine eosinophils, 400
- Evaluation of the multiple-breath nitrogen washout as a pulmonary function test in horses, 99
- Isoelectric focusing properties of serum alkaline phosphatase in disease and following prednisolone and phenylbutazone administration in the horse, 126
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42
- Safety and efficacy of a thymidine kinase negative equine herpesvirus-1 vaccine in young horses, 260
- Serum osteocalcin or bone Gla-protein, a biochemical marker for bone metabolism in horses: Differences in serum levels with age, 223
- Use of electromyography for the diagnosis of equine hyperkalemic periodic paresis, 495

Humans

- Alzheimer's disease — neuropathological aspects, 58
- Hereditary canine spinal muscular atrophy: Canine motor neuron disease, 77
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42
- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Organelle pathology in metabolic neuromuscular disease: An overview, 1
- Transmissible spongiform encephalopathies in humans: Kuru, Creutzfeldt-Jakob disease and Gerstmann-Sträussler-Scheinker disease, 38

Human chorionic gonadotrophin

- Effects of progesterone and human chorionic gonadotrophin administration five days postinsemination on plasma and milk concentrations of progesterone and pregnancy rates of normal and repeat breeder dairy cows, 305

Hysteria

- Alleviation of hysteria in laying hens with dietary tryptophan, 291

I

Interferons

- Induction and characterization of natural porcine interferons alpha and beta, 349

Intermediate filament proteins

- Immunohistochemical detection of intermediate filament proteins in formalin fixed normal and neoplastic canine tissues, 360

K

Kuru

- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Transmissible spongiform encephalopathies in humans: Kuru, Creutzfeldt-Jakob disease and Gerstmann-Sträussler-Scheinker disease, 38

L

Lentiviruses

- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Leukotoxin

- Effect of *Pasteurella haemolytica* and the leukotoxin of *Pasteurella haemolytica* on bovine lung explants, 151

- Granulocyte plasma membrane damage by leukotoxic supernatant from *Pasteurella haemolytica* A1 and protection by immune serum, 146

Liposaccharide

- Virulence attributes of the liposaccharides of the HAP group organisms, S28

Lung explants

- Effect of *Pasteurella haemolytica* and the leukotoxin of *Pasteurella haemolytica* on bovine lung explants, 151

Luteinizing hormone

- Steroid hormone and luteinizing hormone concentrations in the anestrus sow, 209

Lysosomal storage disorder

- Caprine B-D-mannosidosis: Characterization of a model lysosomal storage disorder, 22

M

Maedi-visna

- Enzyme-linked immunosorbent assay for detection of antibodies to maedi-visna virus in sheep I. A simple technique for production of antigen using sodium dodecyl sulfate treatment, 446
- Enzyme-linked immunosorbent assay for detection of antibodies to maedi-visna virus in sheep II. Comparison to conventional agar gel immunodiffusion test, 451
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Malignant hyperthermia

- Malignant hyperthermia susceptibility: Biochemical basis for pathogenesis and diagnosis, 83
- Prediction of the halothane (Hal) genotypes by means of linked marker loci (Phi, Po2, Pgd) in Quebec Landrace pigs, 397

Mastitis

- Method to estimate the somatic cell count of milk from a mastitic quarter using composite somatic cell count, 190

Melanomas

- Melanocytic cutaneous lesions and melanotic regional lymph nodes in slaughter swine, 301

Melanosis

- Melanocytic cutaneous lesions and melanotic regional lymph nodes in slaughter swine, 301

Metabolic neuromuscular disease

- Organelle pathology in metabolic neuromuscular disease: An overview, 1

Milk-spot liver

- Critical assessment of abattoir surveillance as a screening test for swine ascariasis, 274

Mink

- Detection of coronavirus-like particles from mink with epizootic catarrhal gastroenteritis, 383
- Reproductive failure in mink and ferrets after intravenous or oral inoculation of *Campylobacter jejuni*, 432

Monkeys

- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42

Mycobacterium paratuberculosis

- Granulomatous enteritis following oral inoculation of newborn rabbits with *Mycobacterium paratuberculosis* of bovine origin, 313

Mycoplasma bovis

- Immunobinding assay for detection of *Mycoplasma bovis* in milk, 251

N

Neurodegenerative disease

- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49

Neoplasms

- Immunohistochemical detection of intermediate filament proteins in formalin fixed normal and neoplastic canine tissues, 360

Neutrophils

- Activation of bovine monocytes and neutrophils by the Bb fragment of complement factor B: Demonstration by the uptake of 3H-deoxyglucose, 106

O

Osteocalcin

- Serum osteocalcin or bone Gla-protein, a biochemical marker for bone metabolism in horses: Differences in serum levels with age, 223

Ovine ceroid-lipofuscinosis

- Ovine ceroid-lipofuscinosis is a proteolipid proteinosis, 15

P

Pasteurella

- Capsules and virulence in the HAP group of bacteria, S22
- Family *Pasteurellaceae*: Modern approaches to taxonomy, S6
- *Haemophilus*, *Actinobacillus*, *Pasteurella*: Mechanisms of resistance and antibiotic therapy, S73
- Interactions of *Haemophilus-Actinobacillus-Pasteurella* bacteria with phagocytic cells, S36
- Molecular aspects of the virulence of *Pasteurella multocida*, S45
- Molecular aspects of virulence of *Pasteurella haemolytica*, S48
- Molecular characterization of cytotoxins produced by *Haemophilus*, *Actinobacillus*, *Pasteurella*, S33
- New diagnostic techniques: A review of the HAP group of bacteria, S68
- Overview of the virulence attributes of the HAP-group of bacteria, S12
- Positive and negative aspects of host immune response to *Haemophilus*, *Actinobacillus* and *Pasteurella*, S41
- Socioeconomic significance of the HAP group, S1
- Virulence attributes of the liposaccharides of the HAP group organisms, S28

Pasteurella haemolytica

- Effect of deferroxamine pretreatment on acute pneumonic pasteurellosis and neutrophil oxidative metabolism in calves, 227
- Effect of *Pasteurella haemolytica* and the leukotoxin of *Pasteurella haemolytica* on bovine lung explants, 151
- Effects of *Pasteurella haemolytica* A1 culture supernatant on mechanisms controlling bovine alveolar macrophage oxygen radical production, 232
- Granulocyte plasma membrane damage by leukotoxic supernatant from *Pasteurella haemolytica* A1 and protection by immune serum, 146
- Guinea pig model of bovine pneumonic pasteurellosis, 139
- Hematological changes in calves exposed to a mixture of lipopolysaccharide and crude leukotoxin of *Pasteurella haemolytica*, 415
- Molecular aspects of virulence of *Pasteurella haemolytica*, S48

Pasteurella multocida

- Bacterial adhesion to mucosal surfaces with special reference to *Pasteurella multocida* isolates from atrophic rhinitis, S16
- Host response to *Pasteurella multocida* turbinat atrophy toxin in swine, 157
- Model for the induction of *Pasteurella multocida* type-A pneumonia in pigs, 238
- Molecular aspects of the virulence of *Pasteurella multocida*, S45
- Restriction endonuclease analysis of porcine *Pasteurella multocida* isolates from Quebec, 422

Pasteurellaceae

- Our understanding of *Pasteurellaceae*, S78

Platelet function disorders

- Preliminary studies of a platelet function disorder in Simmental cattle, 394

Phagocytosis

- Interactions of *Haemophilus-Actinobacillus-Pasteurella* bacteria with phagocytic cells, S36

Phenobarbital

- Pharmacokinetics of phenobarbital in the cat following intravenous and oral administration, 132
- Pharmacokinetics of phenobarbital in the cat following multiple oral administration, 309

Phenylbutazone

- The isoelectric focusing properties of serum alkaline phosphatase in disease and following prednisolone and phenylbutazone administration in the horse, 126

Pigs

- Abiotrophy in domestic animals: A review, 65

- Airborne spread of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 465
- Analysis of southern Ontario *Actinobacillus (Haemophilus) pleuropneumoniae* isolates by restriction endonuclease fingerprinting, 244
- Ascariasis, respiratory diseases and production indices in selected Prince Edward Island swine herds, 267
- Blood gas and hematological changes in experimental peracute porcine pleuropneumonia, 164
- Capsular polysaccharide antigens for detection of serotype-specific antibodies to *Actinobacillus pleuropneumoniae*, 320
- Critical assessment of abattoir surveillance as a screening test for swine ascariasis, 274
- Effect of ascariasis and respiratory diseases on growth rates in swine, 278
- Effects of experimenters and different blood sampling procedures on blood metabolite values in growing pigs, 379
- Efficacy of a killed gpX deleted pseudorabies virus vaccine, 438
- Host response to *Pasteurella multocida* turbinat atrophy toxin in swine, 157
- Hydrophobic surface properties of *Bordetella bronchiseptica* X-mode cells and their possible role in adherence to porcine nasal mucosa, 296
- Induction and characterization of natural porcine interferons alpha and beta, 349
- Malignant hyperthermia susceptibility: Biochemical basis for pathogenesis and diagnosis, 83
- Melanocytic cutaneous lesions and melanotic regional lymph nodes in slaughter swine, 301
- Minimum inhibitory concentrations of antimicrobial agents against *Actinobacillus pleuropneumoniae*, 198
- Model for the induction of *Pasteurella multocida* type-A pneumonia in pigs, 238
- Porcine group C rotavirus as a cause of neonatal diarrhea in a Quebec swine herd, 385
- Prediction of the halothane (Hal) genotypes by means of linked marker loci (Phi, Po2, Pgd) in Quebec Landrace pigs, 397
- Prevalence of *Streptococcus suis* in four to eight week old clinically healthy piglets 174
- Purification of swine haptoglobin by affinity chromatography, 501
- Radioimmunoassay of serum pepsinogen in relation to gastric (*paraoesophagea*) ulceration in swine herds, 390
- Restriction endonuclease analysis of porcine *Pasteurella multocida* isolates from Quebec, 422
- Serodiagnosis of pleuropneumonia using enzyme-linked immunosorbent assay with capsular polysaccharide antigens of *Actinobacillus pleuropneumoniae* serotypes 1, 2, 5 and 7, 427
- Steroid hormone and luteinizing hormone concentrations in anestrous sow, 209
- *Streptococcus suis* infection in swine. A sixteen month study, 170
- The epidemic of foot-and-mouth disease in Saskatchewan, Canada, 1951-1952, 457

Pleuropneumonia

- Serodiagnosis of pleuropneumonia using enzyme-linked immunosorbent assay with capsular polysaccharide antigens of *Actinobacillus pleuropneumoniae* serotypes 1, 2, 5 and 7, 427

Pneumonia

- Ascariasis, respiratory diseases and production indices in selected Prince Edward Island swine herds, 267
- Effect of ascariasis and respiratory diseases on growth rates in swine, 278
- Guinea pig model of bovine pneumonic pasteurellosis, 139
- Model for the induction of *Pasteurella multocida* type-A pneumonia in pigs, 238

Porcine stress syndrome

- Malignant hyperthermia susceptibility: Biochemical basis for pathogenesis and diagnosis, 83
- Prediction of the halothane (Hal) genotypes by means of linked marker loci (Phi, Po2, Pgd) in Quebec Landrace pigs, 397

Prednisolone

- Isoelectric focusing properties of serum alkaline phosphatase in disease and following prednisolone and phenylbutazone administration in the horse, 126

Progesterone

- Effects of progesterone and human chorionic gonadotrophin administration five days postinsemination on plasma and milk concentrations of progesterone and pregnancy rates of normal and repeat breeder dairy cows, 305

Pseudorabies

- Efficacy of a killed gpX deleted pseudorabies virus vaccine, 438

Pulmonary function tests

- An evaluation of the multiple-breath nitrogen washout as a pulmonary function test in horses, 99

R

Rabbits

- Experimental infection of young rabbits with a rabbit enteric coronavirus, 473
- Granulomatous enteritis following oral inoculation of newborn rabbits with *Mycobacterium paratuberculosis* of bovine origin, 313

Rabies

- Mutants of rabies viruses in skunks: Immune response and pathogenicity, 178
- Vaccinia recombinant virus expressing the rabies virus glycoprotein: safety and efficacy trials in Canadian wildlife, 504

Reproductive failure

- Reproductive failure in mink and ferrets after intravenous or oral inoculation of *Campylobacter jejuni*, 432

Respiratory disease

- Group level analysis of the associations between antibodies to seven putative pathogens and respiratory disease and weight gain in Ontario feedlot calves, 337

Rotaviruses

- Porcine group C rotavirus as a cause of neonatal diarrhea in a Quebec swine herd, 385

S

Scrapie

- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Transmissible encephalopathies in animals, 30

Sertoli cell

- Sertoli cell of the water buffalo — An electron microscopic study, 93

Sheep

- Abiotrophy in domestic animals: A review, 65
- Effects of high dietary sulfur on brain functions using evoked potentials technique, 113
- Enzyme-linked immunosorbent assay for detection of antibodies to maedi-visna virus in sheep I. A simple technique for production of antigen using sodium dodecyl sulfate treatment, 446
- Enzyme-linked immunosorbent assay for detection of antibodies to maedi-visna virus in sheep II. Comparison to conventional agar gel immunodiffusion test, 451

- Epidemiology of *Haemophilus somnus* in young rams, 331
- Lentiviruses are etiological agents of chronic diseases in animals and acquired immunodeficiency syndrome in humans, 42
- Molecular mechanisms of scrapie encephalopathy and relevance to human neurodegenerative disease, 49
- Ovine ceroid-lipofuscinosis is a proteolipid proteinosis, 15
- Transmissible encephalopathies in animals, 30

Skunks

- Mutants of rabies viruses in skunks: Immune response and pathogenicity, 178

Steroid hormones

- Steroid hormone and luteinizing hormone concentrations in anestrous sow, 209

Streptococcus suis

- Prevalence of *Streptococcus suis* in four to eight week old clinically healthy piglets, 174
- *Streptococcus suis* infection in swine. A sixteen month study, 170

Sulfamethoxazole

- Concentrations of trimethoprim and sulfamethoxazole in cerebrospinal fluid and serum in mares with and without a dimethyl sulfoxide pretreatment, 215

Sulfur

- Effects of high dietary sulfur on brain functions using evoked potentials technique, 113

T

Testis

- The Sertoli cell of the water buffalo — An electron microscopic study, 93

Tiamulin

- Minimum inhibitory concentrations of antimicrobial agents against *Actinobacillus pleuropneumoniae*, 198

Transmissible encephalopathies

- Transmissible encephalopathies in animals, 30
- Transmissible spongiform encephalopathies in humans: Kuru, Creutzfeldt-Jakob disease and Gerstmann-Sträussler-Scheinker disease, 38

Trichinosis

- Pathogenesis and serodiagnosis of experimental *Trichinella spiralis spiralis* and *Trichinella spiralis nativa* infections in cattle, 355

Trimethoprim

- Concentrations of trimethoprim and sulfamethoxazole in cerebrospinal fluid and serum in mares with and without a dimethyl sulfoxide pretreatment, 215

Tryptophan

- Alleviation of hysteria in laying hens with dietary tryptophan, 291

Book Reviews — Révisions de livre

Introduction to Veterinary Pathology, 206

Letters to the Editor — Lettres à la rédaction

Minimum inhibitory concentrations of antimicrobial agents against *Actinobacillus pleuropneumoniae*, 198

Author's response, 199
